## STATEMENT

APPLIED TECHNOLOGY GROUP, INC. (“Carrier”) has established operating procedures that ensure compliance with the Federal Communication Commission (“Commission”) regulations regarding the protection of consumer proprietary network information (“CPNI”).

- ❑ Carrier has implemented a system whereby the status of a customer’s CPNI approval can be determined prior to the use of CPNI.

Carrier also maintains a record of any and all instances where CPNI was disclosed or provided to third parties, or where third parties were allowed access to CPNI. The record includes a description of each campaign, the specific CPNI that was used in campaign, and what products and services were offered as a part of the campaign.
- ❑ Carrier has established a supervisory review process regarding compliance with the CPNI rules with respect to outbound marketing situations and maintains records of carrier compliance for a minimum period of one year. Specifically, Carrier’s sales personnel obtain supervisory approval of any proposed outbound marketing request for custom approval regarding its CPNI.
